Most Inspirational Walker Melissa Behrens Lipovsky

My husband was diagnosed with MS in 2009 while we were dating. Together we went through the testing, diagnosis, finding the best doctors, and choosing a medication treatment. I think we both came out stronger at the other end of the journey. We addressed Anthony's MS diagnosis as a close team and 2 years later we were married. In the beginning I knew that Anthony was feeling alone with the disease. I wanted to show Anthony that he would never be alone in his journey. Creating Team Anthony at Walk MS showed him that he had a huge support system from family and friends. I believed giving him that would help him and also help others through the funds we raise.

Make checks payable to the National MS Society and mail to:
